DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: at page 5, line 16 of the specification, there is a typographical error in the citing of the commonly assigned patent application. At this line, "10/665,163" has been changed to --10/655,163--.

The following is an examiner's statement of reasons for allowance: a reasonable search of the prior art of record failed to reveal the limitations as set forth in claim 1, specifically a polyaminoamide containing 1,3-diimine groups. Applicant has defined the polyaminoamide containing 1,3-diimine groups, at page 3, lines 8-14 of the specification, as the structure of formula I. This structure is represented by scheme 2 as set forth by applicant as page 3, lines 23-25 and at page 5. The examiner was not able to find this structure, as defined by applicant and the claim. A structure search of the diimine group on STN did not yield the group in a polyamide or polyaminoamide. Therefore, applicant is limited to the structure of formula I for the polyaminoamide containing 1,3-diimine groups. Applicant does disclose another polyaminoamide

containing a bicyclic 1,3-diimine, but this is clearly different than the polyaminoamide represented by formula I and produced by scheme 2.

Regarding related art, applicant has cited patents (specification, page 5, lines 14-17) (6,222,006 B1) that disclose a polyaminoamide produced by reacting diethylenetriamine, among other reactants, to produce polyaminoamides that can be used by applicant for conversion into polyaminoamides containing 1,3-diimine groups. The prior art of record does not teach or disclose reacting the resulting polyaminoamide at a higher temperature to produce the diimine groups.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher M. Keehan whose telephone number is (571) 272-1087. The examiner can normally be reached on Monday-Friday, from 6:30 to 3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy P. Gulakowski can be reached on 571-272-1302. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
